scanCob
IMC - Inspection Mobile Cobot

- Inspection automation without scientific degree
- Innovation
- Mobility
- Easy operation via tablet
- Fast return on investment
- High efficiency
- Quick implementation
- Safety and flexibility

Mobile inspection station	Scanning process	3D Smart Profilometer
	Mains voltage	230V/N/PE
	Overall Dimensions (H x W x D)	1100-1600 x 800 x 1200
	System weight	≈ 450 kg
Cobot	Inspection Cobot	CRX-10iA/L
	Number of Axes	6 axes
	Reach	1418 mm
	Controller	R-30iB Mini Plus
	Teach Pendant	TP 10 inches
Scanning kit	Scanning source	LMI Gocator 2540
	Laser class	2
	Laser color	Bleu
	Scanning speed (scans/s)	10 000 scan/s
	3D vision AI accelerator	LMI GoMax ORIN
Remote Access	Service Access	Turck TX700
	Energy Consumption Monitoring	Zamel Supla
Safety	Certifications	CE Declaration

scanCob “High-Mix, Low-Volume” solution—the ideal smart tool for quality control of short runs of various parts, where quick changes in location and program are required.

- **FANUC CRX-10iA/L** safe human-machine collaboration
- **βiS** servo drives
- **Stable production** – 24/7
- **Lifetime** service support
- **5 year** warranty, **8 years** maintenance-free
- **LMI Gocator 2540** intelligent quality control tool
- **Class 2 safe** laser – red or blue beam
- **wide field of view** and up to 10,000 scans per second
- **3D analysis tool** configurable via a web browser
- **LMI GoMax ORIN** AI accelerator for analysis and detection
- **Turck TX700** remote service access
- **Zamel Supla** energy consumption monitoring
- **CE Declaration** approval for safe use
